THE SERIES

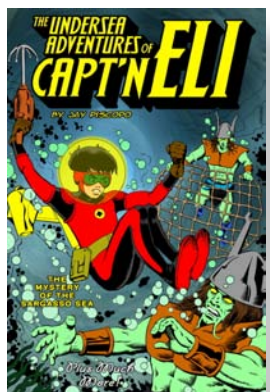

From the boundless imagination of Jay Piscopo comes the epic *Undersea Adventures of Capt'n Eli*, a graphic novel series in the tradition of Jules Verne, Herge, and classic comic strips like Flash Gordon and Buck Rogers. With his companions Jolly Roger, a 200-year-old parrot, and the faithful seadog Barney, Capt'n Eli takes readers into a mesmerizing world of time travel, high-tech ships, flying mini-sub, robots, lost civilizations, and undersea empires in conflict.

This new graphic novel series features Jay's signature style -- integrating timeless 2D character artwork with stunning, modern 3D backgrounds to tell this expansive, engrossing story.

Volume 1 Fans of classic adventure, meet Capt'n Eli! This is the story of a boy with extraordinary scientific abilities and unusual ties to the sea. Join Eli as he dives into the Sargasso Sea with the Seasearchers exploration team, travels back in time to meet Christopher Columbus, and tries to uncover the identity of the mysterious Commander X.

Volume 2 Capt'n Eli is introduced to a secret world of undersea civilizations. The "surface world's" legend of Atlantis pales in comparison to the history and culture of the civilizations Eli encounters under the sea. Capt'n Eli and his sidekicks, Barney the dog and Jolly Roger the parrot, team up with Commander X to protect the underwater city of Aquaria. Together, they help Princess Coral restore peace to her nation.
